* 'On-the-Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance. All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën Retailer for the most up-to-date prices and specification details for all models.

FOUR HOURS TO FULL

Charging Ami couldn't be simpler, just unroll the built-in charging cable, found behind the passenger door, connect up the Type 2 adapter and plug in for a full charge in just four hours*. Charge your Ami at home, at work or using the UK's public charging network thanks to Ami's ability to charge via a Type 2 charger.

GET IT ON Google Play

myCitroën

MY AMI PLAY

Simply and securely access your favourite apps with the "Citroën Switch" button on the steering wheel. It connects your device using Bluetooth® and activates "My Ami Play" which allows you to easily access your apps from one screen.

PURCHASE ONLINE HERE
OR AT PARTICIPATING CITROËN RETAILERS.

MY CITROËN APP

View handy information** about your Ami via the My Citroën app, including remaining range, current mileage, time remaining until fully charged and servicing notification. A USB socket ensures you can keep your devices charged on the go.

my *ami* PLAY

LIFESTYLE ESSENTIALS

Discover the latest lifestyle essentials for your Ami, including custom Ami Ultimate Ears Boom Bluetooth® speaker, Ami keyring in three colour choices and hands-free kit on the Citroën Lifestyle store <http://lifestyle.citroen.com>

* Ami is supplied with a type 2 adapter that connects to Ami's European two-pin plug. This ensures Ami can be charged using the UK's charging network and at home or work via a wall box. Charging via a wall box does not decrease charging time, as the Ami itself dictates the charging speed as opposed to the charging solution. Please ensure you have access to an appropriate charging solution. Speak to your local retailer or Ami Expert for more details.

** DAT@AMI device required which is available as an accessory, as part of one of the accessory colour packs, or as standard with Ami Pop and Ami Tonic.

CITROËN AMI COLOURS AND DIMENSIONS

MODEL	AMI
COLOUR	
Ami Blue	•

The Citroën Ami 100% electric is classified as a quadricycle and will be seen in the UK as a left hand drive. As the Ami has range and speed limitations as outlined in the specification please ensure that this is suitable for your needs and operating purposes. Due to the speed limitation, the Ami is not legally permitted on UK motorways, and further consideration should be given where the speed limit of the road exceeds the speed limitation of the Ami.

Whilst the Ami is manufactured with a European two pin plug, charging in the UK is completed via a Type 2 wall box converter, which is supplied with your Citroën Ami. Charging via a wall box does not decrease the charging time, as the Ami itself limits the charging speed as opposed to the charging solution.
